### PROFILE

I am Front End Developer with 4 years experience building and maintaining responsive websites . Proficient in HTML, CSS, JavaScript, TypeScript, React, Modern libraries and frameworks.

### WORK EXPERIENCE

#### • Tata Consultancy Services (External) 2022-Present

Designed and developed user interfaces for a variety of web applications using HTML, CSS, TypeScript and React.

Collaborate with cross-functional teams to design and develop responsive user interfaces for web applications using React

Create reusable UI components to improve consistency and reduce development time

#### • Codiotic Technologies PVT LTD 2019-2022

Working as part of team to write user interface application using HTML, CSS, JavaScript and React.

Implemented responsive design and cross-browser compatibility to ensure optimal user experience across devices

Experience how to write easiest code that anyone can understand.

working closely with my project manager to fully understand their requirements and deliver accordingly.

### PROJECTS

#### • Ingram Micro

Developed a web-based employee management system to handle employee data, user roles. Created an admin panel that allows authorized administrators to invite and manage other users by assigning different levels of access permissions.

Designed the user interface with Material UI, a component library for React, to provide an intuitive and responsive interface for different resolutions of desktop.

**Technology :- HTML, CSS, MUI, TypeScript, React, JavaScript, Bootstrap**

#### • Smart Learning Destination ( Admin Panel )

Developed an admin panel for an e-commerce website to manage products, orders, and customers. User authentication and authorization, product management, order tracking, customer management. Worked on integrating the site with third-party APIs, including payment gateways and shipping providers, to improve the site's functionality and increase customer satisfaction. Created tables of all users, their details, and their roles for administrators to monitor all activities in the system.

**Technology :- HTML, CSS, Bootstrap, NextJs, Redux Toolkit.**

#### • Smart Learning Destination

Built a fully functional e-commerce site using React and Redux. Overcame challenges such as integrating payment gateways. Implemented features such as a personalized shopping cart and dynamic product recommendations. Implemented responsive design and cross-browser compatibility to ensure optimal user experience across devices.

**Technology :- HTML, CSS, MUI, JavaScript, React, Redux.**
